

THE 212 STAR REVOLUTION

THE 212^o STAR (STRATEGIC TEACHING AIMED AT RESULTS) is a revolution to restore true masterpiece level leadership that tests, trains and values strength of character over leadership tags and surface participation. S.T.A.R. serves all races yet rejects cultural myths regarding what is possible for the underexposed. There is one 212^o effort expectation of those in S.T.A.R. making it a fresh light leading away from mediocre methods & low standards plaguing schools and community. Masterpiece level development must be based on clearly articulated ends, honoring creeds and principles which reflects those values.

212^o S.T.A.R. PRINCIPLES

- ❖ I am aware of how my work intentionally and unintentionally influences others.
- ❖ I will design and shape solutions to problems.
- ❖ I will listen with the intent to understand and be responsive.
- ❖ I will acknowledge my limitations and embrace life-long learning opportunities.
- ❖ I will conduct myself with reason, focus and belief.

212^o POSSIBILITIES AND S.T.A.R. LEADERSHIP INTERNS

The S.T.A.R. Leadership Intern process is a pivotal instrument to gauge progress in youth as they begin to exhibit high levels of maturity, internalization and demonstrate character and confidence in projects, stage, and peer interaction.

After training as an Intern Possibility, STAR Leadership Interns not only help academically as needs of their peers are uncovered but are critical in idea creation of projects to address specific youth and community problems. The strategy works because the missing piece of limited or non existent support is replaced by youth with a new pride of positive team and purpose, while being nurtured and challenged to have the character to do more than they conceive they can. And when character standards are met, interns are promoted to demonstrate and perform at 212^o S.T.A.R Spotlight Events in the Legacy Partner Network. Active interns become self governing because they find:

- A team and often a hero among their peers that they find inspiring and valuable.
- Non-threatening assistance from trust worthy sources that help with embarrassingly weak education and social areas.
- Motivation, exposure and guidance to the doorway of their own road to greatness.
- Fun, valuable avenues to spend non-productive time and associate with world class talent fueling Entrepreneurship passion and projects.
- Tangible and Intangible Incentives and Reward that recognize and promote discovery of Inherent Value and Personal Worth .
